

Buying holidays

Except Hobaho employees; they have a different leave scheme.

We offer the possibility to purchase extra holidays. If the employee has insufficient holidays, he/she has the right to purchase a maximum of two times the weekly working hours per week once a year. After approval from the manager, the employee requests these days at the HR department. The purchased hours will be added to the holiday balance and must be used within one year. Not used hours will expire 12 months after being added.

Calculation: hourly wage (as specified on payslip) x the number of hours purchased + holiday allowance = gross deduction on salary.
